

## CHOLERA ADDS ITS SCOURGE TO INDIA.

Disease Reported to Be Raging Among the Famine-Stricken Inhabitants.

### GHOSTLY SCENES NUMEROUS.

Advices From Bombay Say That the Charity of the World Has Not Appreciably Relieved Suffering.

London, May 5.—The report that cholera is strengthening its deadly hold on famine-stricken India, brings the awful condition of that country more than ever to public view.

About 25,000,000 persons, for this is the population of the districts affected, are suffering from the pestilence. Cholera is everywhere, and the roads are crowded with ghastly bands seeking to escape from the stricken territory, but who, for lack of food and water, mostly succumb in the attempt.

One of the most hopeless features of the whole affair is contained in the statement of a special correspondent at Simla, who writes:

"Ten times the total relief could be laid out in a single district without fully relieving its distress. All we can hope for is a succession of good years to put the people on their legs again."

The British districts are reported to be so far escaping the large starvation and mortality that mark the native States. But that their condition is not enviable is evident from the following description sent by a Bombay correspondent of the scenes at Ahmedabad, a city in the presidency of Bombay.

"In an open space upward of 200 were piled, old and young, being famine perished. The small children, from their thin ragged bodies, had attracted myriads of flies. Some, especially the old men, were bony frameworks."

"A girl sucking two children was ghastly to look at, but the little ones, with hollow temples, sunken eyes and cheeks and the haggard of their cheeks falling in under their skulls, which seemed to overbalance their emaciated bodies, and with wasp-like arms and legs, were more dreadful still."

"Many were suffering from disease and numbers had the fever. Those who could work were sent on where tanks were being dug. Others were given a meal and passed on to the Poorhouse."

"This picture is from a less seriously affected part of the country. The sufferings in the remote districts, where the famine is worse, where all the cattle have long since died, where the water is precious and where cholera has now added its dread scourge, can well be imagined."

### SICK TURNED AWAY.

Persons With Contagious Diseases at Large in Chicago.

REPUBLIC SPECIAL.  
Chicago, Ill., May 5.—Patients suffering from various contagious diseases are being turned away from the county hospital daily and allowed to wander through the streets of Chicago. Officials at the hospital declare that with the amount of space they command they cannot take care of all the patients. This is especially true, they assert, of people suffering from various contagious diseases. Warden James H. Graham of the hospital said today that two persons suffering from erysipelas were turned away from the hospital every day. This condition of affairs, he said, threatened the general health of the city. An average of eight or nine would-be inmates are suffered from contagious diseases, and when they are not able to secure admission to the hospital's contagious ward they are forced to wander around the streets, as there is no other hospital in the city where cases of contagious diseases are cared for.

The capacity of the contagious ward at the county hospital is fifty persons. Forty are now in the ward. For some time the members of the County Board have been discussing the advisability of erecting an addition to the hospital.

It is asserted that if the families of Lorrimer's followers who now live at the hospital were put out there would be room for the sick.

### PROSPECTIVE SETTLEMENT.

Differences of the Clarkes May Be Adjusted.

REPUBLIC SPECIAL.  
Pittsburg, Pa., May 5.—If the friends of James King Clark and of his wife, Esther Bartlett Clark, are not misled by their hopes, there is every probability of a speedy settlement of the estate of the late James Clark. The Clark executors have agreed to a settlement of the estate, and the only question undecided is the amount to be paid to the late Mr. Clark's widow.

A "friendly" suit under a charge of desertion will be tried in the city court today. The case is between William J. King and a woman named Mary King.

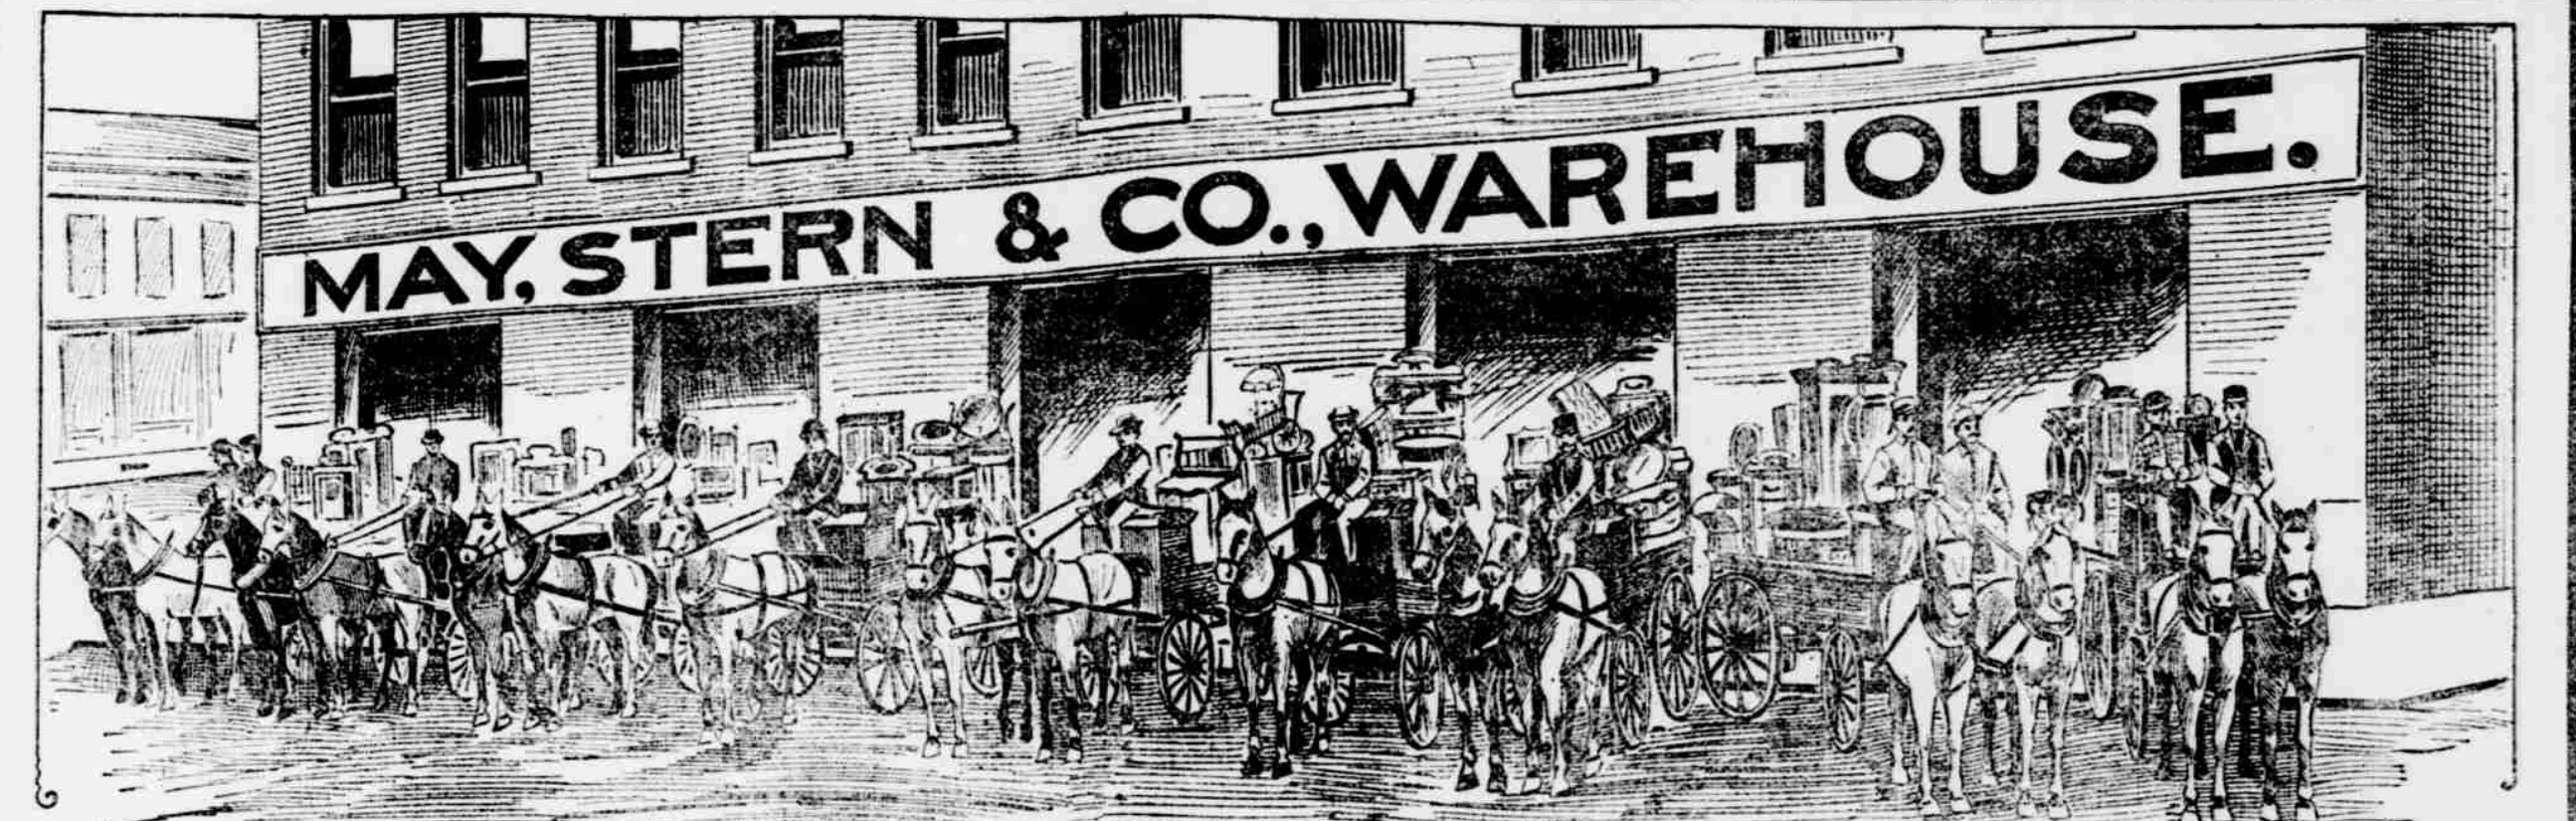

A meeting of those interested was held in New York yesterday, where all the parties to the case are at present. On Monday attorney Goehring will return to Pittsburg and probably make a public statement.
